

Chore-Time names East service manager

MILFORD, Id. — Kevin Schnitkey recently joined Chore-Time as an Area Technical Service Manager. In his new position, Schnitkey will work with Chore-Time distributors in the Eastern states.

Prior to joining Chore-Time, Schnitkey was a service manager for Hurst Equipment, a Chore-Time distributor, in Napoleon, Ohio.

A native of Napoleon, Schnitkey makes his home there with his wife, Sheila, and their two children, Shawn and Shannon.

Chore-Time Equipment manufacturers and internationally markets automated equipment for the care and feeding of poultry and livestock.

Kevin Schnitkey

QUEENSTOWN, Md. — Growers, extensionists and USDA personnel got a first-hand look at the performance of Asgrow soybean varieties and corn hybrids at the recent field days in Queenstown, Md.

Twenty-five extension, USDA and Asgrow personnel attended the first field day Sept. 7, with another 75 growers at the event the following day.

Each day those in attendance were taken on a seven-stop informational tour. John Schillinger, Asgrow Seed Company soybean project leader and station manager for the company's Ames, Ia., research station, informed visitors of Asgrow's variety development program for the East Coast. Dale Weigelt, research assistant at Stonington, Ill., discussed Asgrow's quality seed

100 attend Asgrow days

program, and Dennis Berkey, manager of Asgrow's quality assurance program, explained the advantages of planting proprietary rather than bin-run seed.

Other aspects of the informational tour included information about Asgrow's product line — soybean varieties A3860, A4268, A5474 and A5618, and RX61A, RX777 and RX909 —

Asgrow's corn hybrids adapted for the Eastern Region.

In addition, Austin Goldman, Ciba-Geigy sales representative, presented information on the herbicides used in the plots.

Bill Rhodes, assistant plant breeder at Asgrow's Eastern Breeding station and host for the event, emphasized the importance of the field days.

Eradicane Extra going national

WESTPORT, Ct. — Stauffer Chemical Company has announced a full scale, national marketing program for its Eradicane Extra herbicide. The new product was sold only in limited quantities for the 1982 season, under an introductory program.

"Grower response to this

product has been very positive," said Richard Gold, product manager. "We are fully commercializing Eradicane Extra for the 1983 planting season."

Gold said Eradicane Extra would be included in Stauffer's early order program for distributors in October, 1982. Availability will be national in scope and quantities unlimited.

The "extra" in the new product is an additive that increases the herbicide's persistence in the soil.

The new product may be applied in liquid fertilizer tank mixes, impregnated on dry-bulk fertilizers, or through center-pivot irrigation systems. It is labeled for tank mixes with atrazine, Bladex, and atrazine/Bladex combinations.

Stauffer emphasizes that while the new product offers superior control of target weeds, it shouldn't be considered a cure-all.

BROCK - FIRST

...IN GRAIN BIN LONG-LIFE, CONVENIENCE, SAFETY FEATURES AND HANDY ACCESSORIES

Considering grain storage? Then it makes sense to consider what you're getting for your money.

With BROCK, you get more. More long-life features, more convenience features, more safety features, and BROCK offers more handy accessories that add versatility to your new bin.

LONG-LIFE features like High-rise roof ribs and adjustable roof stiffener rings to protect your investment (and your grain) years longer.

CONVENIENCE features like exclusive Cam-Lock door that needs no tools to open, giant fill hole and positive-control lid hinges.

SAFETY features like real ladder tubing on the roof, not just angle cross bars, bolted to the ribs. This eliminates sharp edges.

ACCESSORIES like the BROCK WELL-GARD™ Discharge Guard for positive bin unloading.

Contact us now, we'll give you lots more . . .

GOOD REASONS WHY YOU SHOULD CONSIDER BROCK FIRST
