Buy Today - Drill Tomorrow**

### The secret is in the Seed Cup and the Depth Control Wheels

1. Fluted roll, molded of oxide-coated sintered metal, is tops for precision, smoothness, and resistance to corrosion. It's well-supported at both ends, and precisely aligned for accuracy. It turns extra easy, and won't freeze up during idle periods.
2. Shut-off block of sintered metal, is also precision-molded for accuracy.
3. Fluted washer fits over the roll and mates closely with it. It's cadmium-plated to prevent corrosion, keep it like new for years.
4. Insert acts as a positive bearing surface to surround and support the fluted washer, reduce wear.

Depth Control and press wheels aid in faster seed germination.

### GOOD CLEAN USED EQUIPMENT

#### TRACTORS

Ford 3000D, 3 pt. Power Steering  
IH 656D Tractor

#### HAY EQUIPMENT
