Two Ways To Improve
Your Profit Picture

XL & DK

Two layers with distinctly different characteristics... From two separate research programs.

You don't have to buy from two different companies to get the two top layers on the market.

The XL shows excellent production under many management conditions. The DK responds best to finely tuned, close management.

DEKALB Layers are bred to possess the economic traits most applicable to your operation. You do have a choice... The high productivity XL or the high efficiency DK.
