

Red and White ETs make Holstein history

BOULDER, Co. — A new benchmark in Holstein breeding was set recently by Red And White Associates of Boulder, Colorado. Specializing in Red and Whites, this sire proving up selected three Red Holstein bull brothers from Huff-N-Puff Farm of Juliustown, New Jersey, all resulting from embryo transfer.

Three red full brothers resulting from embryo transfer and all entering national progeny testing is considered to be a first in dairy cattle breeding according to Fred Hendricks, manager of Red And White Associates.

The young bulls are sired by Ca-Lill Standout Cavalier, a red factor Gold Medal Sire with predicted differences at +2,061 milk, +42 fat

and +0.77 type. Their dam is Huff-N-Puff Performer Lizarosa, EX-2E. The red factor Gold Medal Day is sired by Romandale Dividend Performer.

Bred by William Pettit and family, Lizarosa has been a cornerstone in the Huff-N-Puff herd. Lizarosa has several impressive records, however her highest lactation is 28,670 pounds milk, 4.0 percent test, and 1,144 pounds butterfat. Her lifetime credits are 156,270 pounds milk, 4.1 percent test, and 6,475 pounds butterfat. In addition, Lizarosa has many daughters with high milk yield and outstanding type.

The calves grandam is sired by Brigeen Chief Flying Cloud

whereas their third dam is a high producing granddaughter of Osbornedale Ivanhoe.

While the three bulls were syndicated and therefore owned by 19 farmer-breeders in 12 states, each is being developed jointly with a different artificial insemination firm. Huff-N-Puff Rooster-Red-et is at Tri-State Breeders, Westby, Wisconsin. Huff-N-Puff Rory-Red-et is at Sire Power, Tunkhannock, Pennsylvania. Huff-N-Puff Royalist-Red-et is at Carnation Genetics, Hughson, California.

Red And White Associates is a group of farmer-breeders cooperating together for the purpose of developing new Red and White genetic seed stock. Presently Red and White Associates is the largest group in the world proving Red Holsteins with nearly 50 bulls in various stages of development, states Hendricks.

Huff-N-Puff Rory-Red-ET, is one of three full brothers being proved by Red and White Associates, in Boulder Colorado. The young sires, all embryo transplants, have entered national progeny testing and are considered to be a breeding first. Sired by Ca-Lill Standout Cavalier, the bulls are out of Gold Medal dam Huff-N-Puff Performer Lizarosa.

Dry cow tops Penn-Bell

NARVON — A 6-year-old dry cow collected a \$2,300 bid to top the recent Penn-Bell Ayrshire herd dispersal sale held at the Robert Campbell farm in Narvon.

Earl Keefer and Donald Shetler of Millersburg had last bid on the 6-year-old, who presented them with a Meredith Liberator son the following day. The cow has records to 24,800 pounds of milk and 862 pounds of fat.

According to sale manager Milt Brubaker, Campbell's herd was dispersed to 30 buyers from Pennsylvania, Ohio and New Jersey. Averaging \$992 per head on 68 head, the sale began with bidding at a brisk pace and maintained the tempo throughout the sale, Brubaker reported.

Grantville breeder Christ Seaman paid \$1,550 for a 4-year-old

Hi-Kick granddaughter. Mary Schrantz of Ephrata paid \$1,310 for an outstanding fresh heifer out of a dam with records to 17,800 pounds of milk.

Lancaster County Ayrshire breeder Warren Schmuck added eight head to his Pinelane herd. George Futhey of Woodward was high volume buyer, taking 11 head for \$9,560. Among Futhey's purchases was a Hi-Kick granddaughter with an 18,300 pound milk record and third high in the sale at \$1,440.

Among those buying animals for their 4-H or FFA projects was Wesley Harding, Jr. of Lebanon. Harding paid \$1,275 for a fresh heifer, which he plans to show at the upcoming Pa. Farm Show. — DT

Glenn to speak at AFBF meeting

PARK RIDGE, IL. — U.S. Senator John Glenn (D., Ohio) will speak at the morning general session of the American Farm Bureau Federation's 64th annual meeting in Dallas, Tex., Monday, Jan. 10, 1983.

Glenn's career encompasses military service, astronautics, private business, civic activities and politics. He is known worldwide as the first American to orbit the earth back in 1962 as a participant in the U.S. space program. This native Ohioan began his

second term as a U.S. senator in 1981, following re-election by the largest vote margin in any election in Ohio's history.

Currently, Senator Glenn serves on the Foreign Relations and Governmental Affairs Committees, as well as the Special Committee on Aging. He also is one of eight Democratic senators comprising the policy objectives for all Democratic senators.

Glenn retired from the Marine Corps in 1965 after serving 23 years and achieving the rank of colonel. While in the military, he received numerous decorations and citations for his service during World War II, the Korean conflict and in the space program.

After his military service, he entered private business with the Royal Crown Company. Glenn

served first as vice president of corporate planning and then as president of Royal Crown Cola International.

Glenn is married to his childhood sweetheart, the former Anna Margaret Castor. They have two adult children, Lyn and Dave.

Preceding Glenn's speech at the Dallas convention Center Arena will be the annual address by AFBF President Robert Delano.

**SAVE \$100.00 NOW.
SAVE MORE WHEN
THE HEAT'S ON.**

**INTRODUCTORY OFFER.
SAVE ON KERO-SUN MONITOR SYSTEMS.**

Act now and we'll give you \$100.00 off the regular price of a U.L.-listed Kero-Sun Monitor 20" or Monitor 30" Heating System. The only multi-room, vented system that offers you kerosene heating economy with central heating convenience.

Install now and you'll start saving the moment the heat's on. Unique features like a ventilation system that prewarms incoming air make Monitor Systems one of the most efficient heating systems available. That's the economy.

What's the convenience? With Monitor Systems, a simple touch of a button on the digital instrument panel selects your temperature and programs your automatic on-off timer.

So gain central heating convenience with the economy that lowers your heating bill without lowering your temperature.

See us today for a demonstration. You'll see it's the easiest \$100.00 you've saved all year.

Offer starts October 1 and lasts until December 31, 1982. © 1982 Kero-Sun, Inc.

THE BEST NOW EVEN BETTER

US Farm Systems bedding choppers are now available with controlled cutting length. We also have a recutter, if necessary, of those barns using grates over the gutters. This unit can give a consistent cut that will make every piece of bedding the length you desire. Available in gas engines, electric motors, or P.T.O. units. We also have special strawberry mulchers with 2 rotors that chop at a rate of 3 bales per minute.

Write US Farm Systems, 3053 Barren Rd., Oxford, PA 19363 or call (301) 398-2948.
