

Pennfield formulates

603 Pig Power for faster growth

Pigs weaned at three weeks of age need special care and nutrition to minimize the stress of early weaning. That's why Pennfield developed 603 Pig Power, formulated for better digestibility, palatability and nutrition. It is composed of selected, highly refined ingredients that minimize the stress of going from a whole milk diet to a dry feed.

Pennfield's 603 Pig Power Field Test Results

Average Beginning Age	21 Days
Average Beginning Weight	13.16 lbs.
Days on Test	21 Days
Average Ending Weight (6 weeks of age)	24.81 lbs.
Average Daily Gain	.55 lbs./Day
Feed Conversion	1.31 lbs. Feed/lb. Gain

Pig Power produces excellent gains, superior feed conversion, and more uniform pigs, and produces a better skin color and hair color.

At Pennfield, we can show you the way to increase your productivity and achieve peak performance. Ask your Pennfield representative or call today for more information on Pennfield's swine feeding program.
