on Commercial
EZEE-DRY

The EZEE-DRY uses a unique, patented overhead drying chamber to dry up to 2,000 bph (5 pts. removal) or up to 1,000 bph (10 pts. removal). The evenly distributed, low temperature heat flow of the EZEE-DRY reduces energy use and heat stress. This lowers operating costs and reduces grain damage from cracking.

Energy Efficient Design

The continuous-flow EZEE-DRY has proven over many years to be both efficient and practical. This unique overhead design:

- 1) recycles heat from the cooling grain to further reduce energy use
- 2) uses a thin drying layer for quick, even drying
- 3) requires low maintenance due to few moving parts
- 4) requires little supervision because of a Central Control Panel and five safety cut-off features

Lower Cost

The EZEE-DRY requires a lower initial investment, and lower operating costs than most commercial dryers. And when you add the 20,000 bushels of extra storage space, the EZEE-DRY is the economical, affordable way to dry grain while preserving grain quality.

How much would you make as
an O's Gold dealer?

(Probably, a lot more than you think)

Someone is about to become very pleasantly surprised by the amount of income and benefits they enjoy as an O's Gold dealer. We are looking for a top notch person to serve selected areas. Someone who has a lot to offer — and someone who wants a lot in return.

O's Gold seed dealers get ahead in several ways that aren't always obvious at first. Becoming a dealer is a means of gathering valuable inside information through your association with researchers and agronomists. You'll learn a lot about hybrids and a lot about growing crops more profitably. You'll also earn through incentive programs and profit from travel opportunities for you and your family.

These benefits are all in addition to your cash commission on every single bag of seed sold. It's a great opportunity to supplement your income. You are your own boss. And you get paid for every bit of effort you make. The more you sell, the more you make. The weather and the markets can't pull the rug from underneath you this time.

And it's also important to remember you'll be planting some very profitable seeds — O's Gold Seeds. Call the phone number below for more information. You'll be glad you did.
