Universal milker pump, will handle 3 or 4 units, good condition. Call 215-286-9343.

THIS IS THE BEST WAY TO PUT UP YOUR FORAGE CROP—HERE'S WHY:

1 Better light reflectivity. The light gray Madison Vibra-Cor® staves reflect light 2 1/2 times better than dark blue—and better than any other stave. Result: Less temperature fluctuation in the structure.

2 Better insulation value. Concrete is a much better insulation material than steel! And the unique Vibra-Cor® design makes a Madison stave better than any other concrete stave. Result: Your Madison provides lowest possible temperature variations.

3 Less expansion and contraction. The real key to top quality haylage. Less heat transfer. Less "breathing." A better atmosphere for a perfect feed—no matter how much the weather fluctuates

4 The best unloader. Laidig, Madison helped develop it and knows it inside and out. So your new Nutri-Matic® was designed to make the most of this remarkable unloader that's been called "the best there is!"

5 Greater capacity. Because a Madison Nutri-Matic® doesn't require space-robbing breather bags, you get a bonus of extra capacity! Up to four feet of valuable extra room.

6 Better service. Ask a Madison owner. For 65 years, Madison service people have been building a reputation that can't be beat

7 Lower maintenance. No breather bags to replace. A better unloader. The best silo construction in the world. No wonder Madison owners are happy with their lower maintenance costs.
