

**MAKING GOOD**

**VIGORTONE**

**It's not paying a feed company for high-priced commercial protein.**

**It's paying yourself by feeding high-producing hay and haylage.**

**New ProductionLine™ Dairy Feeding Programs take a hard line on costs — and a straight line to maximum milk production.**

No source of protein can produce more milk, or more economical milk, than the fresh hay and haylage you produce on your own acres. However, it is important to remember that alfalfa is low in phosphorous and other essential nutrients. This is why Vigortone's new ProductionLine dairy pre-mixes can make a critical difference. Although they will amount to only 1% to 3% of the dry matter you feed, they will supply 50% or more of the major minerals, trace elements and vitamins you need to get every extra pound of milk.

See your Vigortone dealer today.
