

NEW 100-190 HP TRACTORS
JOHN DEERE
SMOTHERS THE SOUND
RECORD IN OFFICIAL TESTS

The quietest tractor ever tested is on sale here. We're talking about the John Deere 4050, which recorded a maximum sound level of 73.5 dB(A) while operating under full drawbar load. At 50 percent load with reduced engine speed this same tractor recorded a sound level of 70.0 dB(A). Now that's quiet! But the 4050 wasn't alone in smothering noise. All five of these 50 Series tractors are very quiet. Here's how they performed at maximum drawbar load: 4250, 74.5 dB(A); 4450, 74.0 dB(A); 4650, 76.5 dB(A); 4850, 75.5 dB(A). Stop by and hear the full story on these record-setting tractors.

**POWERFUL NEW EFFICIENCY FOR

Whether you're a backyard gardener, commercial grower or nursery operator, John Deere has a tiller right for you.

Tiller attachments are available for all John Deere lawn and garden tractors, 10 to 20 hp. The tiller for the 318 and 420 cuts a swath 48 inches wide and up to 8 inches deep. The tiller for the 200 Series Tractors can be set for widths of 22 and 30 inches. Tiller for the 314 can be adjusted to widths of 26 to 34 inches. All tractor-mounted models have durable chain drive and three sets of mounting holes to let you match tine aggressiveness to soil conditions.

Walk-behind tillers come in three models.

The new 820 Rear-Tine Tiller has a commercial-type 8-hp engine and a 22-inch working width. Counter-rotating tines, with four short and four long blades per

**The groundwork

spider, can also be set for standard rotation. The gear-type transmission has 4 forward speeds, plus reverse.

The 624 Tiller has a 6-hp engine and an adjustable 13- to 24-inch width. The 216 Compact Tiller has a 2-hp engine and 16-inch tilling width. Width of both models can be extended with optional tine kits.

Make gardening a lot easier this year. See us soon for a John Deere walk-behind or tractor-mounted tiller.
