Auctioneers were Robt. E. & Jeffrey R. Martin and Frank L. Steller.

## PIK data planned March 22

WASHINGTON, D.C. — The U.S. Department of Agriculture's Statistical Reporting Service will issue a special report Tuesday, March 22, at 3 p.m. detailing farmers' sign-up in the 1983 acreage reduction and payment-in-kind programs.

According to agency administrator William E. Kibler, the report will include data on the number of farms with base acreages and the number of farms enrolled, as well as total base crop acreage and the number of acres enrolled for feed grains, rice, wheat and upland cotton. He said the release will carry both national and state totals for each of the four program commodities.

Data, which will cover

all states except Hawaii (but which will include Puerto Rico), will be summarized from raw signup figures channeled from county offices of USDA's Agricultural Stabilization and Conservation to Statistical Reporting Service state offices and tabulated under security at USDA's Washington headquarters.

The special report also will provide state and national data on each of the program signups: acreage reduction, 10-30 percent PIK and whole farm PIK.

Farmers must participate in the previously announced reduced-acreage and paid-diversion programs to be eligible for program benefits such

as Commodity Credit Corporation loans and purchases, PIK and target price protection. For wheat and feed grain producers, participation is also required to be eligible to enter the farmer-owned grain reserve.

The report also will indicate the percent of farms and base acreage enrolled, the acres required for conservation use, the base acreage of participating farms and total permitted acreage by states.

Because of the sensitivity of the enrollment and acreage data, the report will be released from the Statistical Reporting Service's lockup facility following the close of commodity markets.

### FEEDER SALES "Cattle & Pigs"

We've got a reputation of selling clean, local home raised cattle at these sales. Farmers come here from all over the Tri-State area to buy or sell. Plan to market your cattle in these widely advertised sales.

Demand for pigs is also good at these sales since many farmers who feed cattle also feed pigs.

#### Schedule of Special Sales - Wednesdays

Mar. 16	Mar. 30	Apr. 13
	Apr. 27	May 11
Dairy Heifer Sale Apr. 6		

Cattle weighed on arrival and sold in order received.
