

Shumaker visits farm

HALIFAX — John Shumaker, candidate for the 15th senatorial district special election to be held on Tuesday, visited Kenneth Bechtel's farm near Halifax Wednesday to discuss his views on agriculture and the food industry with local farmers.

Shumaker sees strengthening the Agricultural Areas Act, low interest farm loans, mortgage assistance and equitable tax reform as opportunities to further

the preservation of Pennsylvania's farm families and farmlands.

Shumaker announced his strong support for improving the marketing and promotion of Pennsylvania farm products, thereby furthering the economic development of the agricultural community. He supports product development research, improved food exports and developing joint government and industry programs.

A well-maintained system of rural roads and bridges was also recognized by Shumaker as being essential to the agricultural economy.

Shumaker said he will seek the advice of the farm community on important agricultural issues and the establishment of new farm programs. He plans to meet with the farm organizations regularly, keeping abreast of their concerns and any problems they may have.

State Senate candidate John Shumaker, center, chats with Kenneth Bechtel, left, and Bruce Cosmitz.

"As our most important industry, agriculture must be heard!" Said Shumaker, "Agriculture needs people who understand their problems. I am committed to insuring the future of agriculture in Pennsylvania."

AG WEEK

One-step fertilization and weed control in half-a-day.

Weed and feed your cornfields in one trip.

Get two jobs done fast, right and on time. Just ask your fertilizer dealer to apply Sutan[®]+ herbicide in combination with atrazine and/or Bladex* with your choice of fertilizer, dry or liquid. He'll spread them. You just incorporate.

You have four hours to incorporate. Of course, your dealer can apply your fertilizer impregnated with Sutan+ faster than you can disc it in. But you don't have to worry about Sutan+ losing any of its effectiveness. Because you're allowed up to a full four hours between application and incorporation.

The best incorporated corn herbicide.

Sutan+ with atrazine and/or Bladex gives you outstanding control of annual grasses and broad-leaf weeds. Sutan+ is the only corn herbicide designed to be incorporated. So you get a weed barrier that works rain or shine.

Check with your fertilizer supplier now about time and labor-saving weed and feed, with no worry about loss of effectiveness. Follow label directions. Stauffer Chemical Company, Agricultural Chemical Division, Westport, CT 06881.

The best incorporated corn herbicide
