

Ayrshire herd

(Continued from Page B2)
400 acres, raising most of their own crops.

It's not hard to believe Ann when she says she has little time for additional activities. She used to be active in local fairs, and served on their dairy committees, but has given up showing because, "We don't have enough help and it is very time consuming." Her son shows some animals at Unionville Fair and her grandchildren show.

She is an avid stamp collector - a hobby started in her youth - and she does a lot of corresponding with friends across the United States and abroad. But when she has a few spare minutes she says, "I like to scour records. That's fun.

It's more fun than a movie. It is never dull."

Two years ago Ann discovered a fire in her barn which could have been disastrous. By carrying out burning bales and cutting out burning beams, the barn was saved, something for which Ann will always be grateful.

"All I ever lived for was to have a good herd of Ayrshires. My husband always called me a dreamer, saying I was on a dream and he couldn't get me off. But my dad was a dreamer so I guess it comes naturally."

For Ann, the dreaming paid off, and now she is living that dream, caring for her outstanding herd of Ayrshires.

These cattle make a pretty picture on the pasture at Timberlawn Farm. Ann and her husband have developed this well-known herd of registered Ayrshires.

Warwick YF session Monday

LITITZ — The Warwick Young Farmers will be holding a Tractor and Farm Machinery maintenance program on Monday. The program will be held at the Warwick High School Ag Shop at 7 p.m.

A tractor maintenance demonstration will be given by John Bucher, of Sholtzberger's John Deere in Elm. Bucher will cover the servicing of fuel filters, air cleaners, cooling and hydraulic

systems. Also present will be Duane Soper of New Holland Machine. Soper who is being sponsored by Roy Brubaker Equipment of Lititz, will be

covering the servicing of balers, mowers, and haybines. All area farmers are welcome to attend.

BROCK GRAIN BINS

THE MOST NEW FEATURES IN MORE NEW MODELS

Over 300 models in dual purpose and commercial bins 15' through 90' diameters. New or improved features — from the large fill hole that allows greater air flow, down to the anchoring brackets that hold the bin walls securely. Engineered, manufactured and warehoused in our plants with careful supervision. Quality is further increased by the prime, high grade steel used in all bins. All these features combine to make a handsome, safe bin that makes your facility more attractive while increasing your profits.

GIANT FILL HOLE
Gives greater air flow with out additional openings. Rigid 24" diameter center ring makes mounting of accessories easy.

ROOF RIB
Brock's high rise rib with the step down design combines with a 35° pitch to give more strength with minimum weight. All roof panels are one piece construction to eliminate leaks and speed erection.

Please include stamped, self-addressed envelope.

749 FEWER PARTS

A 100-FOOT LENGTH OF BERG GUTTER CHAIN HAS 749 FEWER PARTS THAN MOST OTHER BARN CLEANERS

Berg Gutter Chain is a series of one piece links hooked end to end, which makes it easy to remove links and eliminates the need for all those pins, rivets and bolts. The heavy concentration of metal in the hooks and at the pull points gives the Berg Chain Link more pull strength than ordinary links. The links are 7 1/2 inches long, 2 1/4 inches wide and 1/2 inch thick and weigh over two pounds. Each link is forged from special alloy forging steel in a single piece. No worry about corrosion.
