

Poultry course on April 6

NEWARK, Del. — The 1983 Delmarva Hatchery and Breeder Flock Management short course will be held Wednesday, April 6, at the Wicomico Youth and Civic Center, Salisbury, Md., from 8 a.m. until 3 p.m.

The program will cover a variety of topics in the hatchery and breeder flock areas. Ed Odor, University of Delaware, will talk about killed reovirus vaccines for broiler breeders. Fred Moultrie, of Kennebec Breeders will discuss genetic selection and tradeoffs in breeder development.

Larry Cogburn will explain the relationship between chicks' dietary level and temperature preference. Perrie Waters of Holly Farms will moderate a panel discussion on sanitation and fumigation practices in hatcheries. Frank Wills, of Sterwin Labs, will provide an update on regulations regarding fumigants in hatcheries.

R.W. Kiers, Mississippi State University, will explain the

operation of a trouble-shooting incubation clinic.

Mary Ann Ottinger, University of Maryland, will discuss recent breeder nutrition and management research. Andy Ludwig of Townsends, Inc. will talk about new techniques in hatchery waste disposal.

Frank Craig, of Perdue Farms, will explain emergency procedures for hatcheries and breeder flocks during VVND outbreaks. Robert B. McHose, of Kennebec International, will discuss management of the breeder male. And the University of Maryland's Ed Mallinson will describe recent problems and new concepts in mycoplasma testing.

The short course is sponsored by the Delaware Cooperative Extension Service, Eastern Shore Hatchery Association, and Delmarva Poultry Industry, Inc.

Interested persons must preregister before March 31. A \$15 fee covers the cost of luncheon and a copy of the proceedings.

PRO TIL

AmPro's top of the line is a rear tine tiller which can take on the toughest jobs. The combination of an 8-HP engine and AmPro's own patented counter rotating 8-bladed Twice Til Tines allow the PRO TIL to pulverize the soil better in fewer passes. The PRO TIL is even self-propelled so all you do is guide!

MUELLER

HiPerForm
MUELLER

dairy farm equipment

You've known about the reputation of Mueller Milk Coolers for years. You know it's the Number One Cooler selected by dairymen around the world because of its automatic washing system, its efficient temperature control and agitation system, its cooling efficiency, reliability and durability.

The Mueller FREE HEATER saves the energy wasted by your refrigeration unit. The Free Heater is a heat exchanger, and it captures a large portion of the normally wasted heat energy from refrigeration and air conditioning systems and uses this captured heat energy to heat water to approximately 140° F. with no additional energy requirements.
