## AG-RAIN WATER-REEL

The reel irrigator with so many advantages all rolled under one name.

- **Radial Inflow Turbine Drive** - originated and patented by Ag-Rain. It's the most efficient turbine drive on the market - it saves energy. Unit is totally gear driven - reel has roller cog drive - no inefficient V-belts
- **Speed Compensator** - maintains uniform travel speed - assures uniform watering
- **Tachometer Speed Setting** - convenient, direct read-out of ground speed. Set and forget
- **No Wasted Water** - all the water goes through the gun sprinkler - none is dumped on the ground
- **Reel Swivels** - easily on ball bearings - irrigates up to a half mile from one position
- **Dwell Timer** - delays start of travel - results in uniform end of field watering
- **Four Models** to choose from - 4 1/2 inch x 900 feet, 4 1/4 inch x 1150 feet, 3 3/4 inch x 1250 feet or 3 inch x 880 feet
