

Talk to the man who knows feed handling systems.

Badger has been building forage equipment for over 30 years. They know what it takes to make forage equipment that is **profitably** efficient. And they know what is needed to make forage farming profitable.

NO SILO TOO HIGH

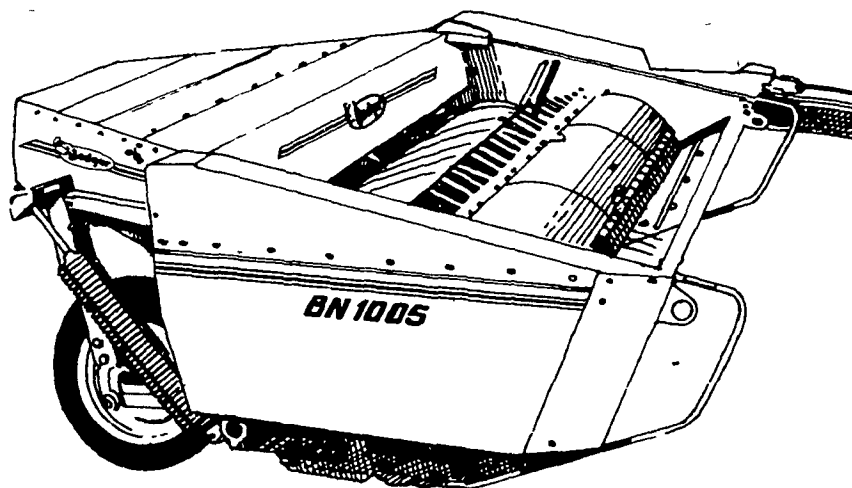

They haven't built a silo that the Badger Blower can't fill. No matter how high or how big, the Badger Blower can fill 'em all.

It's simply the smoothest running, toughest blower you can buy, outperforming other models in volume and speed.

It will take anything you give it, forage or grain. And the special Badger magnet catches tramp iron.

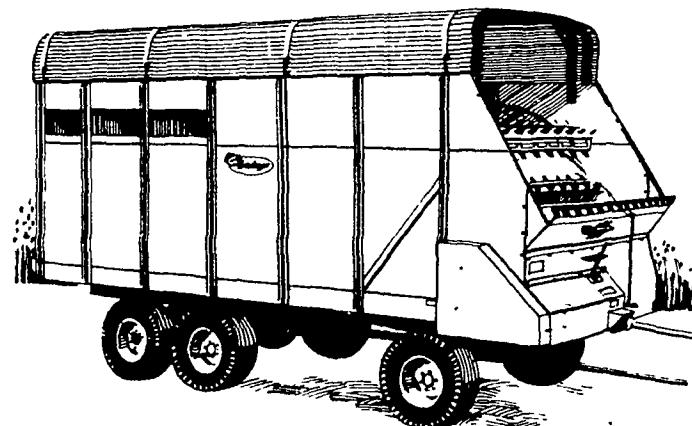

Get together with your Badger Dealer today and get ready to fill your big silo.

**Badger's Mower/Conditioner... ground hugging,
clean cutting efficiency at its best!**

Badger's Mower/Conditioners are quiet, solid running, heavy-duty units designed to get all of your valuable forage crop without over-conditioning. Built rugged for less maintenance, longer life, adjustable dial hitch reel speed and tooth pitch. Wheel to cutter bar distance is only 38" to follow ground contours and get all the crop. Unitized header dampens high speed bounce.

**It's easy to understand why you'll never see a
Badger Box in "the forage box graveyard."**

You can't buy a better box than Badger's. Start with specially treated acid resistant exterior grade plywood, bolted to steel channel stakes. No nails anywhere. Add to that a tough welded and bolted undercarriage built to carry the big loads. Match all this with Badger's simple and reliable heavy roller chain drive, a beater design that delivers a smooth even discharge to the blower. And then mount it on Badger's own heavy duty single or tandem axle running gear and you've got a box that will stand up to the toughest punishment.
