

Henke Machine, Inc.'s Portable Mixer with Ear Corn Mill, Model 24, can crush and roll wet or dry ear corn, mix it with supplements and auger fresh feed into feedbunks, feeders or bins.

## Henke combines mixer & ear corn mill

COLUMBUS, Ne. — With a new Portable Mixer with Ear Corn Mill, Model 24, from Henke Machine, Inc., dairymen and cattle feeders can use one machine to crush and roll wet or dry ear corn, mix it with supplements and auger fresh feed into feedbunks, feeders or bins.

The mill can process 250 to 450 bushels of ear corn per hour. A hydraulically driven paddle conveyor carries ear corn to the crusher. In the crusher, cobs are sized and husks are shredded with a screen containing holes of 1/2, 5/8, 3/4 or 1 inch. The crusher bars are hard surfaced for long wear.

The roller mill under the crusher head cracks the kernel and further breaks up pieces of cob. These rolls

average a Rockwell C62 hardness.

The rolled ear corn then is moved to the 100-bushel capacity mixer for mixing with supplements. This fresh feed then can be augered into feedbunks, feeders or bins with the hydraulically driven discharge auger. This

auger has a 240 degree arc.

More information on the Henke Machine, Inc. Portable Mixer with Ear Corn Mill, Model 24, can be obtained from Wayne Davy, president, Henke Machine, Inc., P.O. Box 1006, Columbus, Nebraska, 68601.

IT'S YOUR HEARTBEAT, AMERICA

## USDA seeks wheat offers

WASHINGTON, D.C. — The U.S. Department of Agriculture will accept offers from wheat farmers to make available their 1983 crop production for payment-in-kind purposes, since USDA's Commodity Credit Corporation does not have sufficient quantities of other wheat in inventory which can be made available to all producers for PIK.

Everett Rank, CCC's executive vice president, said offers will only be accepted from farmers who have no wheat or insufficient quantities of wheat pledged as collateral which can be redeemed and sold to CCC for PIK purposes. CCC has the option of requiring PIK participants to obtain loans on their 1983 production. Some farmers have indicated a preference to receive PIK compensation from their 1983 production.

CCC will accept offers from wheat producers through May 27. CCC reserves the right to accept or reject any offers from producers who assigned their PIK to warehousemen by May 1, Rank said.

CCC will develop special provisions that will permit farmers to use their 1983 production for PIK even though they do not have warehouse or on-farm storage available.
