Speed King Portable Elevators

Engineered for balance, one man can move and position elevator even with hopper in tilt-up position
 Choose from PTO, gas or electric power All drives come standard with 1050 roller chain and adjustable slip clutch
 Center location of attaching chain lengths and trough design prevent galvanized cupped flights from tipping to assure maximum material flow at any angle #55 or #62 elevator chain available with C-1 attachment links standard
 Galvanized trough is 20 1/2" wide, 7" deep for big capacity
 Interlocking joint design prevents sagging
 Wide optional tilt-up feed hopper (with patented design) has adjustable springs to provide balance at any elevator angle Tilts up flat over trough for transport

Wheels, with regreaseable anti-friction bearings, are set far apart for good standability
 Ruggedly constructed tubular under carriage "tucks away" to get in close to bins and cribs for maximum reach
