Circle Steel grain bins come in a variety of sizes.

New grain bins introduced

TAYLORVILLE, IL. — An economically priced line of new farm bins has been introduced by Circle Steel Corporation, Taylorville, IL. The new "Champ" bins feature both storage and drying capabilities, including standard stir drying equipment.

"Champ" bins are available in sizes and capacities from 15' - 1800 Bu. through 48' - 44,903 Bu. The companion "Champ SX" stiffened

line of bins are available up to 48' - 55,982 Bu. Both lines have a full line of accessories, including floors, sidewall ladders, teardrop hatches, aeration and drying equipment.

For more information, contact your local Circle Grain Storage Specialist or Circle Steel Corporation, Circle Park, Taylorville, IL 62568.

Fertilizer group to mark 100th

WASHINGTON, D.C. — Economic recovery and business trends will be the topics analyzed by a U.S. senator and a spokesman for the New York Stock Exchange during The Fertilizer Institute's 1983 Marketing Conference, June 12-15 in White Sulphur Springs, W. Va. The occasion has also been chosen to mark the 100th anniversary of the industry association and its predecessor organizations.

Sen. Wendell H. Ford (D-Ky.), ranking minority member of the Senate Rules Committee and member of the Energy and Natural Resources Committee, will keynote the general session with an evaluation of the nation's economic condition. Ford's Senate assignments also involve three key subcommittees, including one on energy regulation, a topic on which industry leaders expect to hear his views.

William Freund, senior vice president and chief economist of

the New York Stock Exchange, will emphasize business trends in his overall analysis of the economy. Freund is a recognized authority on market outlook and a widely-quoted spokesman for the NYSE.

A special audio-visual presentation will trace the growth of the industry and its associations over the past century, commemorating the birth of the first national fertilizer association in May 1883. Institute president Gary D. Myers will present a look ahead for the organization and industry, setting an agenda for action during the coming years. Myers will be conducting the Institute's first major conference since his election as president last February. Chairman of the association's board of directors, Jonathan P. Rogers, vice president and general manager of Mobil Chemical Co.'s phosphorus division, will serve as presiding officer at the annual event. More than 800 industry leaders are expected to be on hand.

SOYBEAN ROASTING

ON YOUR FARM
DON'T WASTE IT - ROAST IT

Moldy or Musty Corn
Have it restored to usable condition by roasting.

Make higher profits from all grains. Roasting improves TDN, destroys molds, retards toxins and removes moisture.

CUSTOM GRAIN ROASTING DONE IN PA AND SURROUNDING STATES OR OWN YOUR OWN ROAST-A-MATIC GRAIN ROASTER.
