

## Four millionth Jersey recorded

Lancaster Farming, Saturday, June 4, 1983—A31

The oldest dairy breed organization in America recorded its four millionth animal on April 29 of this year. Officials of The American Jersey Cattle Club announced Johnreber Earl Linc Bracelet, a heifer calf owned by John P. Reber, D.V.M., Apple Creek, Ohio, was the four millionth

purebred Jersey recorded by the organization.

During the past decade, the number of Registered Jerseys has increased by 52%, with 1982 registrations the second highest ever recorded at 49,109 females. The top year for registrations was 1980, when 51,197 Jersey females

were registered.

Why have Jersey registrations increased a greater percentage during the past decade than any other breed? A limited survey provided the following reasons for this remarkable Jersey expansion:

- \* Increased production of Jersey cows
- \* Expansion of milk marketing

efforts, especially Equity in milk pricing

- \* Genetic Recovery, opening the Herd Register to superior unregistered Jerseys
- \* Jersey Marketing Service, making profitable Jerseys

available to buyers

- \* Leadership: Presidents, directors and management who provide proper breed programs and the subsequent adoption of these programs by a high percentage of Jersey breeders.

# ALL MANURE MAY HAVE BEEN CREATED EQUAL... BUT THAT'S AS FAR AS THE SIMILARITY GOES

The Amount And Type Of Bedding - Temperature - Rainfall - Time Of Year - The Local Geography - All Affect How You "The Individual Farmer" Choose To Handle Your Manure. You May Choose To Handle Your Manure As A Liquid, Semi-Solid or Solid. There Are Advantages And Disadvantages To Each System.

*The Point Is You Need A Choice Of Equipment*

<h1>1</h1>		<b>BARN CLEANER</b> From the custom delivery chute, to the welded reverse corners... from the big 18" steel fabricated corner wheels to the most reliable power unit in the industry, it's Hedlund throughout. Fits any barn layout.	<b>WE HAD THE BARN CLEANER PATENT IN 1922!</b>
		<b>FREE-STALL CLEANER</b> Dependable, thorough automatic cleaning! The big high-carbon steel scraper blade is curved to keep manure rolling ahead of the scraper. The recessed chain keeps the blade to the floor and is out of the way of cattle. And more!	<b>BEST IN THE INDUSTRY!</b>
		<b>CROSS-CONVEYOR</b> Complete your scraper system with Hedlunds cross conveyor. Features similar to our proven gutter cleaner.	<b>BUILT WITH THE SAME STRENGTH AS OUR GUTTER CLEANER!</b>
<h1>2</h1>		<b>MANURE AS LIQUID</b> The Hedlund-Vaughan Chopper Pump quickly chops and blends manure in the reception pit, then pumps slurry to a storage unit. You enjoy easy, full control from the pump platform.	<b>WE MADE LIQUID SYSTEMS WORK WITH THIS PUMP</b>
		<b>MANURE AS IS</b> The Hedlund Hydraulic Piston Pump moves manure underground to your storage facility. All-weather system. The Hedlund Big Ten Pump delivers the capacity you need for best performance.	<b>HYDRAULICS MAKE THIS SUPERIOR</b>
		<b>MANURE AS A SOLID</b> Fast - up to 36 strokes per minute. Powerful, variable displacement pump uses less energy. Easy maintenance — no cellar or pit.	<b>NEW CHECK THIS UNIQUE DESIGN</b>

**...HEDLUND GIVES YOU A CHOICE.**
