FARM EQUIPMENT

HANDLES LIKE A SELF-PROPELLED.

New 12' Gehl Model 2230 pull-type mower conditioner has all the maneuverability of a more expensive self-propelled Hydraulic center-pivot Swing-Frame assembly lets you pull from the right or left side of your tractor. All hydraulic drive keeps you moving smoothly, and the big 20" auger moves the crop into 57" conditioning rolls for precision conditioning. Check in with your Gehl dealer and check out the new 2230

RISSLER FEED MIXERS

More and more farmers are finding that mixed rations are producing healthier and better livestock, plus better feed efficiency. Veterinarians, nutritionists consultants and feed analyst are recommending (TMR) feeding systems. Perhaps you can also increase profits by turning to this system.

This **UNIQUE** design was developed so farmers can have more for less. A 15,000 lb. pintle web with 2" high paddles will tumble feed from end to end. An auger with left and right flighting will bring feed to center and keep the pile crowned. This auger will mix the feed from side to side at the rate of 1200 lbs. of feed per minute and will unload when drop out is opened. Convenient crank allows flow from 0 to 1500 lbs. a minute whatever desired.

Box is coated with urethane on inside with glass like finish that is abrasion resistant. All stress points are lined with 1/4" and 5/16" heavy steel. Heavy duty bearings can be relubricated and easily accessible. Takes less HP than conventional mixers.

Optional stainless-steel floor. Electronic or mechanical instant-weigh scales.
