

Anthracnose and early blight. Bravo[®] 500 beats them both.

Bravo 500 controls 9 major tomato diseases better than any other fungicide.

A full season, regular spray schedule with Bravo 500 delivers healthier vines, healthier crops and bigger top quality yields.

What's more, tomatoes treated with Bravo 500 can be either mechanically harvested or hand picked.

So for anthracnose and early blight control all season long, make it Bravo 500. It's all the fungicide you'll need.

Bravo 500 from Diamond Shamrock. Wherever healthy tomatoes are grown, it's the name that keeps cropping up.

Always follow label directions carefully when using agricultural chemicals.
