Eastern Pa. & N.J. Poultry

Thursday June 16
Report supplied by USDA
Market Comment: Bookings for this week have generally been at 12 cents but next week's deliveries have occurred in a range of 12-13 cents, offerings of live or light and it is currently difficult for plants to

book enough volume to run full schedules. Canner pack demand is fair.
Prices Paid at Farm: 9-11, mostly 10-11.
F.O.B. Plant: 12-13½, mostly 12-13.

Philadelphia Eggs

Thursday, June 16
Report supplied by USDA
MARKET COMMENT: Prices higher. Carton egg movement overall is no better than fair, with several dealers reporting orders as below average. Promotional activity still generates a fairly good call, but interest to feature is dwindling. Many dealers are pessimistic in regards to movement as higher retail prices, lack of features and hot weather will all contribute to a lighter demand. Jumbos and extra large are tight. Graded large are adequate to ample with excess stocks easily available. Mediums are ample as production from new flocks is more than sufficient plus additional offerings are noted from the midwest. Smalls are irregular but ample over all. The undertone is no more than steady.

Prices to retailers: Sales to volume buyers, consumer grades white eggs in cartons delivered store door:
A Extra Large 68-74; A Large 67-73; A Medium 55½-60.00.

Delmarva Poultry

Thursday, June 16
Report supplied by USDA
Market Comment: Ready-to-cook movement on whole birds is fair to fairly good with clearances reported as satisfactory in most quarters. Parts are moving fairly well overall but legs and, to some degree, breasts are available in spots off the shore. LTL asking prices are unchanged at 49-50¢ cents. Slaughter schedules are moderate. Large supplies are fully adequate. Weights are generally desirable although an occasional plant is noting lighter than desired weights. The recent hot weather has shown noting lighter than desired weights. The recent hot weather has shown no adverse effects on production at this time. Under tone steady.
Estimated slaughter of broiler fryers in Delmarva (000).
Estimated June 16; Actual 1,626; June 9; Actual 1,821; June 14; Actual 1,641; average weight 4.26; June 7 average wt. 4.33.

± 6 eggs = Profit / Loss

According to Waymon Halbrook, University of Arkansas Agricultural Economist, in today's poultry economy the difference between losing and making money on your flock could be in the last ½ dozen eggs each hen in your house produces. DeKalb layers are consistently leading the competition in total profit performance which includes egg numbers. What are you basing your next pullet chick order on? A penny or two savings on chick cost? OR 25¢ per pullet housed on egg income? That's \$15,000 on a 60,000 bird house. YOU BE THE JUDGE!
