**A SPERRY NEW HOLLAND FORAGE HARVESTER WILL PUT UP YOUR SILAGE EFFICIENTLY**

1. WAIVER OF FINANCE TO APRIL 1 1984 WITH INTERIM PAYMENT OR...
2. 3%, 6%, 9% APR FOR 12, 24, OR 36 MONTH RESPECTIVELY

The Model 892 is the biggest capacity pull-type forage harvester offered by Sperry New Holland. Built for big tractor horsepower, the "892" can be used with tractors up to 175 horsepower.

The optional METALERT™ electronic metal detector — a Sperry New Holland exclusive — reduces harvester damage and can cut down on hardware disease. The "892" is available with 12-knife or 8-knife cutterhead. Exclusive underbeveled knives never need rebeveling and make knife sharpening fast and easy. Flip-up feedroll makes shearbar adjustment easy.

There's a big choice of crop heads, including the exclusive interchangeable 3-row crop head/windrow pickup, 2-row low-profile crop head, conventional windrow pickup, sicklebar and ear-corn snapping heads. Under-knife baffles increase capacity.

The Model 782 is built for heavy-duty performance. The 12-knife cutterhead chops uniformly, without a recutter screen. But for special crops and conditions, recutter screens are available. Check these outstanding features:

- Exclusive underbeveled knives eliminate the need for rebeveling.
- Flip-up feedroll makes shearbar adjustment easy.
- Choice of 540- or 1,000-rpm driveline.

The heart of the 250-hp Model 1900 chopper is a massive 12-knife cutterhead that's 25 1/4-inches wide. Exclusive underbeveled knives never need rebeveling. And the exclusive Metalert™ electronic metal detector prevents costly damage to the cutterhead by detecting ferrous metal objects and stopping the feedrolls and attachment drive before they reach the cutterhead. Exclusive flip-up feedrolls make shearbar adjustment easy. Exclusive interchangeable cropheads are ideal for the farmer/rancher who chops both windrowed crops and row crops. Stop in soon and let us show you all the features on both Whopper Choppers — the Model 1900 and the 325-hp turbocharged Model 2100.

**GET ALL THAT VALUABLE HAY CROP WITH SPERRY NEW HOLLAND HAY TOOLS**

1. WAIVER OF FINANCE TO APRIL 1, 1984 WITH INTERIM PAYMENT OR...
2. 3%, 6%, 9% APR FOR 12, 24, 36 MONTHS RESPECTIVELY

If you're working alone, the economy Model 1003 automatic bale wagon will save you time and labor. Bales need never be picked up by hand when you own a bale wagon that does it all — picks up, hauls, stacks and retrieves automatically, while you sit in the driver's seat. The "1003" handles 83 14" x 18" bales per load. Stop by and let us show you all the features of this labor saver.

It's the Model 316 from the baler leader Sperry New Holland. The 316 is built with extra rugged features to handle tough crops. It's designed to work hard and provide many years of dependable service.

If you want to make a lot of good looking bales in record time, check out the Model 849 from the round baling leader — Sperry New Holland. The "849" turns out solid 4-3/4' x 5' bales that weigh up to 1200 pounds. And, to make your job easier, there's a host of options that add comfort and convenience to a round baling system. Let's talk about the "849" and how you can bring capacity, bale shape and automation to your round baling job.

Full-width conditioning rolls in the Model 489 Haybine® mower-conditioner are located in the main frame, not the header. The lighter header responds quicker to ground contours and greatly reduces knife and guard damage. The "489" is designed for operators who demand the very best.
