## More Marek

### vaccines considered

WASHINGTON, D.C. — U.S. Department of Agriculture veterinarians are considering licensing Marek's disease vaccines derived from virus sources other than turkey herpes virus.

Reason: Some strains of the disease are showing resistance to currently licensed vaccines, a USDA official said today.

"To date, USDA has granted licenses only for Marek's disease vaccines derived from turkey herpes virus, which had provided immunity," said David A. Espeseth, a veterinarian with USDA's Animal and Plant Health Inspection Service. "However, we have revised requirements to facilitate research and development of alternate vaccines."

Espeeth said USDA veterinarians have revised the agency's biologics notice that governs the manufacture and licensing of Marek's

disease vaccines. This permits development of vaccines containing SB-1 or other avirulent virus strains that meet the requirements of the Virus-Serum-Toxin Act, USDA regulations and the needs of the poultry industry.

Information about the production of new Marek's disease vaccines is available from the Veterinary Biologics Staff, APHIS-USDA, Room 832 Federal Building, 6505 Belcrest Rd., Hyattsville, Md. 20782.

Veterinary biologics such as vaccines, bacterins, toxoids, antitoxins and diagnostics must be licensed by USDA if they are distributed in interstate commerce. Licensing standards require products to be proven pure, safe, potent and effective.

Producing establishments also are licensed and are inspected by USDA to assure compliance with the law and federal regulations.

## HOWDY MR. HOG FARMER...

Contact us at Hershey Equipment Co. about our hog equipment. It takes a lot of planning, knowledge and experience to develop a profitable confinement operation. We will assist you in the planning and recommend the most efficient arrangement of equipment. This service we provide will blend the building and equipment together to form a practical, labor saving, economical hog system for top quality hogs.

Give Me Your Attention Please!

**IT PAYS TO RAISE HOGS IN A SYSTEM DESIGNED BY HERSHEY EQUIPMENT CO.**

#### Gestation Systems

reduce stress and the opportunity for fighting

#### Farrowing Systems

are designed with both the sow and farmer in mind.

#### Finishing Systems

are designed using top quality penning and feeders.

#### Nursery Systems

include pig rearing cages or penning equipment.

### ALUMINUM GRAIN BODIES & ALUMINUM REPAIRS

These ultra-light bodies are designed for strength through engineering, not strength with bulk. For example a 16' grain body with tailgate and 48" sides weighs only 1490 lbs. complete. We'll build you any length or any side height up to 60".

#### Also available

- ★ Double swinging hay hauling tailgate
- ★ Barn door type tailgate
- ★ Slide out cattle chutes
- ★ Diamond Flooring
- ★ Pull out panel tailgates
- ★ Any size grain chute
