**John Deere Skid-Steer Loaders**  
move a lot in a little space

Inside the "cage" of a John Deere skid-steer loader is one place sitting down on the job really pays off. Seated inside, you can do more work in less time, with far less fatigue that if you attempted the same job by hand.

There are four skid-steer loaders to choose from... the 17 hp 60, the 23 hp 90, and the big-capacity 125 with a 37 hp gas engine or a 40 hp diesel engine. All have 4-wheel hydrostatic drive that makes spot turns easy. Narrow tread widths and short wheelbases for access to

tight areas. And a three-way braking system with operational, emergency and parking brakes.

For safety, there's a neutral start system, integral lift arm locks, and a Roll-Gard® ROPS with canopy, sidescreens and seat belt.

See us soon for a test drive. There's a John Deere skid-steer loader right for your needs.
