# "Truly automated manure-handling systems"

**1** For liquid manure:  
Model 200 Air Manure Mover

**2** For slurry manure:  
Model 100 Slurry Pump

**3** For semi-solid manure:  
Model 300 Air Manure Mover

**4** For forkable manure:  
Tripod-Supported or Swinging-Slide Stackers

Patz can end daily manure hauling and help you preserve manure's valuable nutrients — up to \$84 fertilizer value from each cow annually. Choose the Patz Manure-handling system to meet your needs.

- Compressed air moves manure from a 1,700-gallon collection tank through PVC pipe to storage. Few moving parts provide low maintenance, easy service and long life.
- Large plunger moves manure to storage through 12" or 15" PVC pipe. Plunger stroke length adjusts, depending on consistency. Plunger and plunger sleeve remove easily for inspection.
- Compressed air moves manure with long-cut straw through 24" pipe to storage. Few moving parts assure long service life. Load and haul manure with your present equipment to keep investment low.
- One machine cleans gutter, conveys and stacks manure. Two chain sizes and drive units to fit each installation economically.

Get a Patz Manure-Handling Systems brochure from your Patz dealer or mail the coupon today.
