ONE SIZE DOESN'T FIT ALL.

Kubota has the field covered with dozens of diesel tractors, from 10 to 76 PTO horsepower.

And while they may vary in size, some things are the same on every model. The Kubota diesel engine, for example.

It's sturdy and dependable, one of the most fuel-efficient diesel engines anywhere. And not only does it use little fuel, it requires little maintenance. There's less noise and vibration too.

So take a look. There's a diesel-powered Kubota in your size.

Nothing like it on earth.™
