Peach market news

September 7, 1983
Report Supplied By PDA
 Week eight of the Peach Market News reports the first good news in quite awhile. Demand especially for 2 1/4" is strong. Prices have increased on packed fruit. Orchard run demand has been good also. However, the smaller size fruit is still not moving in both packed and orchard run fruit.
 The extensive media blitz of the past two weeks that resulted in many news items including television, radio and newspaper coverage coincides with the increase in demand and prices. Hopefully, this helped get the peach message to the consumers.
 Late season varieties are in full swing. Most report they are in their last week to 10 days of the 1983 peach season.

truckload, f.o.b. peach prices for Berks, Adams, Franklin & York Counties.
 38# cartons U.S. Extra #1 2 1/4" up Blake, Cresthaven, Jersey Queen, Red Skin, - 8.00-9.00 m. 8.50; 38# cartons U.S. Extra #1 2" up Blake, Cresthaven, Jersey Queen, Red Skin - 6.00; #38 cartons U.S. Extra #1, 2 min. Bartlett pears 2" up - 7.00; Bushel Red Bartlett Pears orchard run - 8.00; Bushel Yellow Bartlett Pears orchard run - 7.00; 1/2 bushel prune plums orchard run - 8.00; Packed 25 lb. cartons yellow nectarines 2" up - 7.00; Packed 25 lb. cartons yellow nectarines 2 1/4" up - 9.00.

Summary
 These are the latest wholesale,

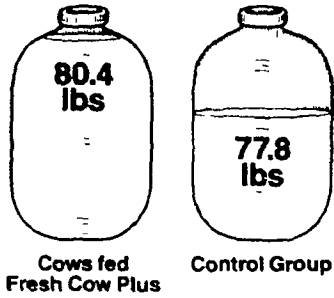

Turn her ninety most stressful days into her ninety most profitable days

Agway Fresh Cow Plus™ gives you four benefits that add up to extra profits

1. Tests prove 2.6 lbs more milk per day during the first 90 days

During the first 90 days of lactation your cows experience their highest levels of stress—stress that can severely limit production.

However, Agway Fresh Cow Plus can help minimize stress during this critical time, and maximize profits. Fresh Cow Plus is formulated according to the Agway-patented protein solubility program, and fortified with the critical vitamins and minerals your cows need during early lactation. This special nutritional package boosted production by over two and half pounds of milk per day during the first 90 days. That translates to 460 pounds more milk over the entire lactation.

Trials conducted with 983 cows in 45 Northeastern herds

2. Reduces cases of cystic ovaries over 30%

4.4%
Cows fed Fresh Cow Plus

6.5%
Control Group

Fresh Cow Plus also helps minimize another stress related problem—cystic ovaries. In tests, cows fed Fresh Cow Plus developed 32% fewer cases of cystic ovaries than the control group. That means better reproductive performance

3. Reduces time to first-observed heat

Cows fed Fresh Cow Plus also developed their first-observed heat earlier. And the earlier and stronger your cows show their first heat, the easier it is to get them bred and pregnant

In tests, cows fed Fresh Cow Plus reached their first observed heat four days earlier than the control group.

JUNE											
		1	2	3	4						
5	6	7	8	9	10	11					
12	13	14	15	16	17	18					
19	20	21	22	23	24	25					
26	27	28	29	30							

4. Increases profits over feed costs by \$18.50 per lactation

Most importantly, Agway Fresh Cow Plus can improve your financial bottom line. In tests, cows fed Fresh Cow Plus produced enough extra milk to pay for the supplement and add \$18.50 extra profits per cow

When you count the higher milk yield, extra profits and better reproductive performance, the benefits of Agway Fresh Cow Plus add up rapidly. For more information about how Agway Fresh Cow Plus can improve performance and reduce stress during early lactation, contact your Agway Farm Enterprise Salesperson, Store or Representative.
