The 76 HP KUBOTA  
That Works Like 100 HP*

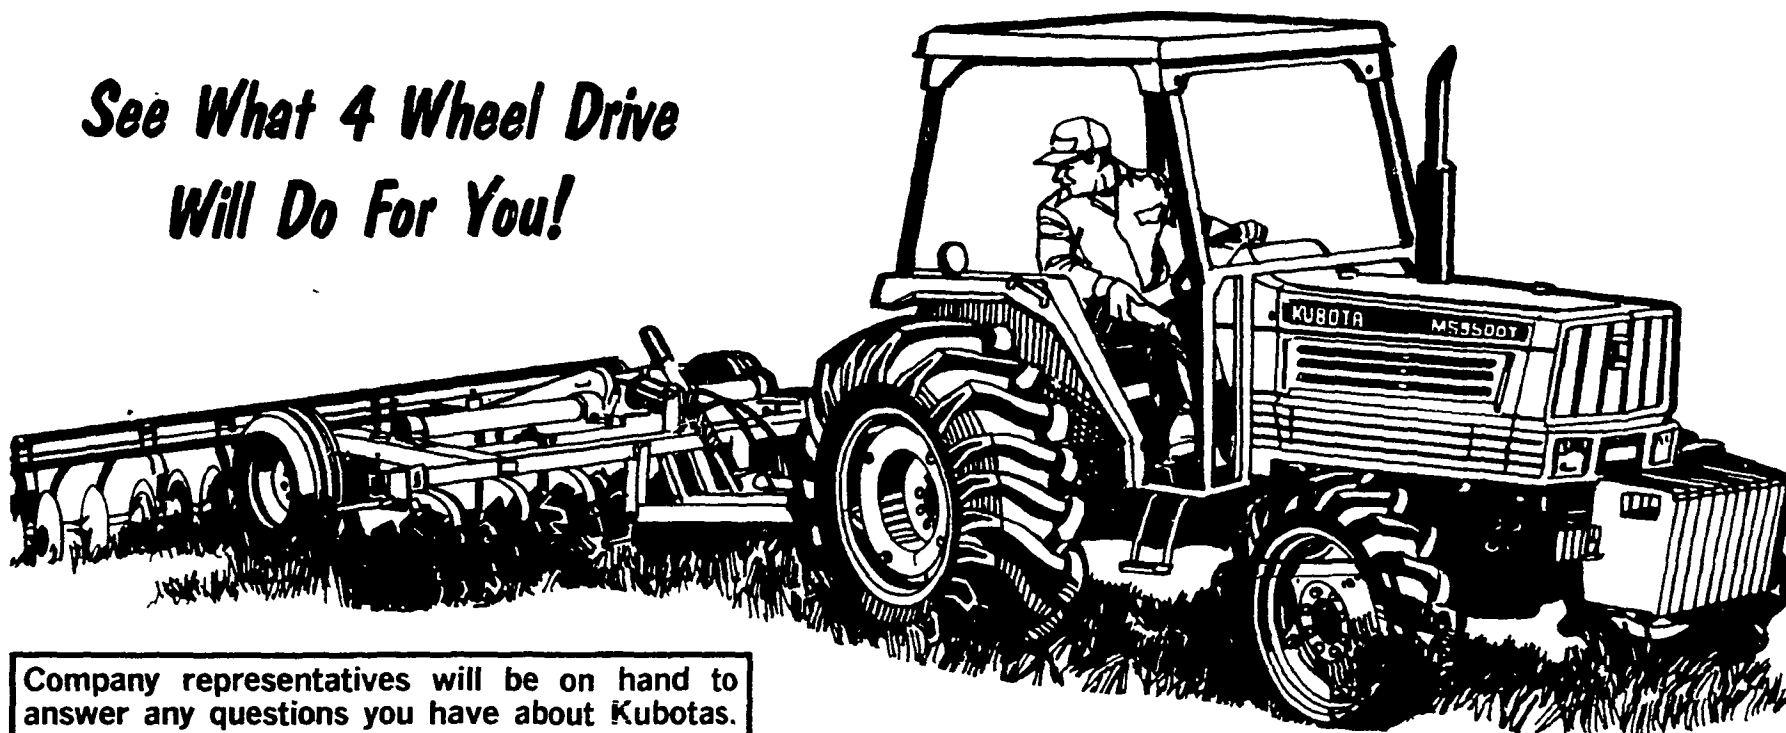

If you're looking for a 100 horsepower tractor, look at the Kubota M7950 instead. It's rated at 76 PTO.

But it works more like a bigger tractor. Because we build both our own diesel engine and fully synchronized speed transmission, the

two are designed to work together perfectly. This exact match gives you a lot more pulling power.

And equipped with 4-wheel drive, you can get as much as 35% more pulling power. So take a look at the new Kubota workhorse, the M7950.

Will Do For You!*
