

Kid's KOrner

WE HAVE A WINNER!

After receiving more than 100 entries, we have a winner for our "Fall Weather" contest.

Etta Shirk, 13-year-old daughter of Mr. and Mrs. Ben Shirk, Ephrata R4, came up

with about 240 words.

"I learned different words I didn't really know before," Etta said, "I worked on it in the evenings after the day's work was done."

Etta will be in eighth grade at Pleasant

Valley Parochial School. She lives on a 76-acre dairy farm.

Thanks to everybody who sent us an entry. They all looked great. Another contest will be coming soon!

4-H Camp Brings Kids to College

Learning how to make pizza and milkshakes was a highlight of 4-H day camp at the University of Delaware. Here, Elizabeth Haldeman, Elkton, Md. carefully measures ingredients under the watchful eye of EFNEP nutrition aide Pearl Gatewood.

NEWARK, Del. — One hundred fifty area youngsters spent a recent week at the University of Delaware learning about everything from kites to computers. It was all part of a new program in 4-H day camping.

Camp at the university was much more than a babysitting service. Faculty and staff of the College of Agricultural Sciences taught minicourses in their specialties, from insect collecting to engine repair. Volunteer 4-H leaders and others shared their expertise in fields like photography, outdoor cooking, sewing, computers, and new games. Swimming, campfires, and singing gave some of the flavor of Camp Barnes in Sussex County, where Delaware 4-H holds its annual overnight camp.

Ten-year-old Richard Fuester, Newark, was enthusiastic about learning how to develop film in his photography class, and how to build a working rocket and kite in his aerospace class.

Thirteen-year-old Angela (Turn to Page B12)

Heather Brown, age 9, has every reason to smile. Her three-month-old Alpine goat walked away with reserve champion honors at the recent Elizabethtown Fair. Heather lives on Teat Treat Farm, Peach Bottom, where she and her family raise 25 goats.

COLOR THIS!
