The heart of the 250 hp Model 1900 chopper is a massive 12-knife cutterhead that's 25 1/4 inches wide. Exclusive underbeveled knives never need rebeveling. And the exclusive Metalert™ electronic metal detector prevents costly damage to the cutterhead by detecting ferrous metal objects and stopping the feedrolls and attachment drive before they reach the cutterhead. Exclusive flip-up feedrolls make shearbar adjustment easy. Exclusive interchangeable cropheads are ideal for the farmer/rancher who chops both windrowed crops and row crops. Stop in soon and let us show you all the features on both Whopper Choppers — the Model 1900 and the 325-hp turbocharged Model 2100.

The Sperry New Holland Model 707 forage harvester is an economical tractor mounted harvester that provides exceptional traction in wet fields. It features a 54 inch Super Sweep pickup. A one row cornhead is also available. Why not buy the best?
