

We offer a product only when we are satisfied that it enhances the performance and efficiency of dairy farming. Then we mark it with our sign...

# The Mark of Excellence

**MUELLER**  
Dairy Farm Equipment

**Mueller Refrigerated Receiver**

- The Refrigerated Receiver pre-cools milk to 55 degrees F. or lower before pumping to the milk cooler!
- The patented Temp-Plate® Heat Transfer Surface, used as the Receiver's cooling plate, promotes rapid cooling of the warm milk!
- As milk temperatures drop quickly in the Receiver, bacteria counts are reduced and milk quality improves!
- The Receiver guards against butterfat loss, and that improves milk quality!
- The Receiver is designed for use with single or dual condensing units on small or large dairies!
- Easy to clean: just flip the switch to "wash," and the Receiver washes in place with the rest of your milk pipeline system!

**Mueller Fre-Heaters**

- Select from four models, in 50-through 350-gallon sizes, to meet your hot water requirements!
- Patented stainless steel Temp-Plate Heat Transfer Surface promotes rapid heat transfer!
- Save between 60% and 100% of the wasted heat generated by your milk cooling system and produce free hot water and save dollars!
- The Tri-Plate Fre-Heaters are available in 2 through 5 hp sizes, for small or large dairy operation!
- Mueller's five-year warranty on the heat exchanger is unmatched in the industry!

**Mueller HiPerForm® Milk Cooling System**

- Superior cooling is yours with HiPerForm's exclusive, patented refrigeration system!
- The Mueller Matic® Automatic Washing System gives you consistent, sanitary cleaning!
- Patented stainless steel Temp-Plate Heat Transfer Surface promotes fast, efficient uniform cooling!
- Precharged and factory-sealed stainless steel refrigerant piping between inner and outer cooler walls promotes reliability and trouble-free performance!
- Precise electronic temperature and agitation controls and automatic safeguards protect the quality and safety of your milk.

... FIELD SERVICE TRAINED DISTRIBUTORS offer INSTALLATION and 24-HOUR SERVICE to ensure the safekeeping of your milk!
