Dr. Scratch Cattle Dusters

Guaranteed against defective material and workmanship for 1 year.

- New patented rubber scratching surface makes animals want to rub, dispensing effective insecticide down through hair, directly to hide. Grooms cattle well.
- One installation for whole season. Provides effective control of horn flies, both bloodsucking and biting lice and aids in reducing face fly populations and other pests.
- Weather conditions have no effect on the applicator or application. Even though dust becomes wet it does not effect the efficacy of the insecticide.
