On **Case** Model 56L & 66L Farm Loaders

The Earlier You Buy, The More You Save!

Two quick-attach loaders for maximum job versatility

Match up these front end loaders with a Case 90 Series General Purpose Tractor — high platform and low profile models, and models with front wheel drive attachment. You'll have loader versatility that saves time every time you use it.

The model 56L loader fits Case 1190, 1290 or 1390 tractors... the 66L teams up with 1390, 1490 or 1690. Whatever the combination, you've got a strong, quick-attach/detach fast-cycle front end loader that gets work done in a hurry so you can get on to the next job.

Left for heavy jobs. Both models incorporate a rugged box-welded loader frame that attaches to the tractor's rugged box section main frame.

Powerful hydraulics. Two loaders with double-acting lift cylinders handle loads from 1800 up to 2200 lbs. (816 to 998 kg.) Heights 120 up to 130" (305 to 330 cm). Double-acting bucket cylinders assure heavy downpressure for digging, rugged breakout force for the heavy material.

Standard equipment • Double-acting lift cylinders • Double-acting bucket cylinders • Hydraulic control kit with 2-spool valve, fittings, quick disconnects Model 66 only • Wire braid hoses • Self-storing parking stands • Tubular box frame.
