BRICKERVILLE EQUIPMENT
SALES * SERVICE * PARTS
537 E. 28th Div. Hwy. Lititz, PA 17543
717-626-6198

Outstanding Features

- Thick walled for extra strength. No spreader on the market has thicker walls. 30 to 70% thicker steel than competitive spreaders.
- Adjustable relief valve maintains uniform pressure. Prevents over pressurization of tank.
- Primary Shut Off valve plus a secondary shut off provide more than adequate protection against liquids entering the pump.
- Big 512 cubic inch displacement pressure vacuum pump is standard equipment. Conservation rated at 135 C.F.M. or air at 85 to 90 percent vacuum for filling and will maintain 10 to 15 lbs of pressure for unloading or agitation in the pit.
- Open door models permit access for cleaning and easy maintenance.
- Walking beam suspension. Standard on 2600, 3150, 3600 and 4600 gallon models. (Optional on 1500 & 2100 gallon models). Front & rear wheels on each beam follow contour of the ground, provides a smooth level ride.
- Flotation tires reduce soil compaction. Let you spread on soft ground early in season.
- Massive frames resist the wrenching twisting jolting shocks of hard field usage year after year.

Sizes - 800 gal. thru 4600 gal.
Both vacuum & augermatic spreaders for truck mount or trailer type

1 - 1974 Ford LT 9000 tandem axle tk tractor with PT 270 Cummins engine, 6 speed Fuller trans., power steering, air slide 5th wheel, good 10.00x20 tires.

SPECIALS

1 - Used JD 430 Tractor, WF Axle, Nice Cond.
1 - Used 2 Knife Plow Down Attachment For 3150 Spreader, Used Very Little
2 - Used 1500 gal. vacuum spreaders, one with plow down attachment, both in good condition.
