

The Surge Infarmation System.

A feed and management system
so advanced that
all others seem outdated.

But don't take our word for it. Make your own comparison.

Compare the overall potential of Infarmation to help you track your cows, manage your dairy, and handle the future demands you'll put on your system. There simply is no comparison.

Compare Infarmation's feeding capabilities. With most other systems, you need to manually adjust the amount of feed periodically, so cows are always being overfed or underfed. The Infarmation Feed Manager, on the other hand, automatically adjusts the ration each day of each cow's lactation cycle. This is more than a convenience. It's much more precise feeding, and makes a big difference in efficiency, milk production and even herd health.

Finally, compare service. We doubt if you'll find another system with a toll-free Help Line, a computer club and certified dealer service right on the farm.
