**Delmarva Poultry**

Thursday, October 6  
Report supplied by USDA  
Market Comment: Ready to cook movement on whole birds and parts remain strong. Current product is well cleared and some plants reported being an oversold position for the balance of this week. Slaughter heavy overall with a few plants noted as not operating this coming Monday. Live supplies are at least adequate. Weights remain heavier than desired overall. Undertone fair.  
Today's L.T.L. asking prices are .01 higher on U.S. Grade A at 49-54 cents.

**Eastern Pa. & N.J. Poultry**

Thursday, October 6  
Report supplied by USDA  
Market Comment: Prices unchanged. Undertone is steady but a little unsettled as some resistance is noted at the finished product level. Offerings of live are light but sufficient to keep plants running all schedules. Canner pack movement is no better than fair.  
Prices Paid at Farm:  
Light Type Hens: 12-13, mostly 12-12½.  
F.O.B. Plant: 15-15½, mostly 15¼.

**Philadelphia Eggs**

Thursday, October 6  
Report supplied by USDA  
MARKET COMMENT: Prices are unchanged. Carton egg movement is fair to occasionally good. Most traders indicate that the degree of featuring has lessened and normal business has also tapered to some degree. Increased availability due to cooler weather coupled with high retail prices has enabled dealers to completely fill orders on jumbo and extra large, but supply of large is ample. Excess graded loose large are easily available and usually at discounts while class one's have become available and premiums are not usually being sought even for heavier weights. Mediums are barely adequate to adequate, and there is a fairly active call noted for class three's and some quarters although pockets of mediums are available locally.

Prices to retailers: Sales to volume buyers, consumer grades white eggs in cartons delivered store door:  
A Extra Large .81-.84; A Large .80-.83; A Medium .69½-.74.

**± 6 eggs = Profit / Loss**

According to Waymon Halbrook, University of Arkansas Agricultural Economist, in today's poultry economy the difference between losing and making money on your flock could be in the last ½ dozen eggs each hen in your house produces. DeKalb layers are consistently leading the competition in total profit performance which includes egg numbers. What are you basing your next pullet chick order on? A penny or two savings on chick cost? OR 25¢ per pullet housed on egg income? That's \$15,000 on a 60,000 bird house. YOU BE THE JUDGE!
