

# DEKALB-PFIZER GENETICS DEALER

## "There are two good reasons to plant more corn in '84. XL-61 is one of them."

This year, like most years, I planted what I sold. And I sold more XL-61 than any other corn hybrid.

I've always been impressed with the quick start, strong stalks and healthy plants I get with XL-61. And I'm even more impressed with the consistently high yields.

While a lot of my customers plant XL-61 for its top quality grain, many plant it because it's also ideal for silage. With XL-61, there's no problem with ear retention either.

So, for my money, and yours, XL-61 is one real good reason to plant more corn next year. And the other reason? That's a dealer like me who knows his product line and can recommend the hybrids

that will fit your needs and make the most of your acres.

See your DEKALB-PFIZER GENETICS dealer soon. He may give you more than a couple of good reasons to plant more corn in '84.

Who's giving you good reasons  
to plant more corn?

*I am.*

\*"DEKALB" is a registered brand name. Numbers designate hybrids. As a condition of sale, please note statement of limited warranty and remedy on DEKALB-PFIZER GENETICS orders and tags.
