How To Turn Out Heavier Cattle In Less Time...

Bovatec® in your cattle feed gets two jobs done.

Bovatec® is the only feed additive of its kind that improves both feed efficiency and average daily gain. As a result, cattle reach market weight sooner on less feed — and you'll cut costs by about \$15 per head.

If you're looking for a way to reduce the cost of feeding your cattle, now is the time to ask us about Bovatec.

Your young's representative has all the details on the two new premixes containing Bovatec — CATTLE POW'R and CATTLE SAV'R. If you don't know the representative in your area call collect at (814) 793-3701.
