Lunch - Tent if inclement.**Dairy, tobacco legislation**

(Continued from Page A18)

national quota to 3 percent annually.

6) Changing the date for announcing the Flue-cured national marketing quota from December 1 to December 15 and the date for certain other kinds of tobacco from February 1 to March 1. It also allows Stabilization (the Flue-cured association) to ask the Secretary of Agriculture to establish a no-net-cost "account" in CCC in lieu of a "fund" in the association, as is allowed for other associations carrying out tobacco price support programs.

7) Eliminating lease and transfer of Flue-cured tobacco allotments and quota beginning with the 1987 crop. Lease and transfer for the 1984 through 1986 crops would be permitted only if both parties agree to "share the risk" by requiring that no payment for the lease will be made to the lessor prior to the marketing of the tobacco produced under the lease.

8) Reducing the amount of

Burley tobacco that may be leased and transferred to any farm from 30 thousand pounds to 15 thousand pounds, beginning with the 1984 crop, and prohibiting leasing of any Burley quota after July 31.

9) Extending from December 1, 1983 to December 1, 1984, the date by which non-farming entities must sell their quotas. The mandatory sale provision does not apply to farms where the land is being used for agricultural purposes.

10) Requiring imported tobacco to be inspected for grade and quality the same as tobacco marketed through a warehouse in the United States and to be accompanied by a certification that no pesticides that are not permitted on tobacco in the U.S. have been used in the production of the imported tobacco.

Other provisions of the legislation include:

1) Requiring the Secretary of Agriculture to make damaged corn held by the CCC available to far-

mers and ranchers adversely affected by the drought to preserve and maintain foundation herds of livestock and poultry. The corn would be offered for sale at 75 percent of the basic county loan rate.

2) Authorizing the development and issuance of marketing orders for eggs.

3) Requiring the Secretary of Agriculture to conduct a periodic review of Federal milk marketing orders.

4) Expressing the sense of Congress that the Secretary of Agriculture should barter, under existing provisions of law, commodities (especially dairy products) owned by the CCC for materials produced in foreign countries.

5) Suspending for 1984 and 1985 the minimum limitation on certain meat imports under the Meat Import Act of 1979.

**PUBLIC SALE****VALUABLE  
ANTIQUES**
