

Wayne plans water resources meetings

HONESDALE — A series of Delaware River Region will be three educational meetings on the water resources of the upper held Oct. 26, Nov. 1, and Nov. 15 at 8 p.m., at the Honesdale High School.

The meetings are being conducted by the Wayne County

Extension Service and the Wayne County Planning Department in cooperation with the Wayne County Chamber of Commerce, Wayne County Farmers Association, and the Wayne County Commissioners.

The purpose of the meetings is to provide information to interested citizens on the water needs of the Delaware River Basin and an opportunity to look at possible alternatives of meeting these needs. The role of the Delaware River Basin Commission in the management of water in the basin will also be examined.

Some of the specific topics to be presented will be - Water use and Water Law, A Historic View of Water Management in the Delaware River Basin, Current Management Practices in the Basin, and the Role of the Courts and the Commission.

Speakers will include Timothy Weston, Pa. Department of Environmental Resources; Bruce Stewart, Executive Director, Water Resources Association of the Delaware River Basin; Robert Goodell, Chief Engineer, Delaware River Basin Commission; Edward Wisely, Citizen and Resident of the river basin; William Douglass, Wayne County Planning Director; Robert Fish, River Master, Milford; and Jerry Hansler, Executive Director, Delaware River Basin Commission.

The final session on Nov. 15 will consist of a panel discussion with Robert Mermell, W.D.N.H. Radio, serving as moderator.

All interested persons are welcome. Additional information on the series of the meetings can be secured by calling the Wayne County Extension Office at 717-253-5970 ext. 114.

40 years of proof

Since 1940, Gehl has been building field choppers and forage harvesters with one thought in mind... performance. And, year after year, thousands of satisfied owners prove that we know how to use that specialized experience to build better machines. Today, Gehl concentrates those 40 years of chopping know-how into three fuel-efficient, high-capacity forage harvesters.

Capacity King 1250. The largest capacity pull-type harvester on the market. Gehl's exclusive 24" spinner delivery system keeps forage moving with no cross augers to plug. The giant, 9-knife, 25 1/2" cylinder gives a quality cut. And the new cutterbar adjustment is the easiest anywhere. In-head hydraulic knife sharpener and electric controls are standard too.

New mid-range 1000 gives you the high capacity you'd expect from the big 21" cylinder and fast spinner delivery system. Like the 1250, standard features include the in-head hydraulic knife sharpener, adjustable

axles, one-way shear bolt protection and attachment down-stop.

Fuel saver 750 tackles just about any chopping job. Uses less horsepower per ton chopped than many bigger harvesters. Uses less fuel. The 8-knife cutterhead is set into the blower compartment for smooth, continuous material flow. Add Gehl's patented in-head hydraulic knife sharpener for even more cutting efficiency.

Prove to yourself that there's no substitute for Gehl's 40 years of forage harvester experience. See your Gehl dealer soon.
