The MANURE PUMP with a BIG BITE

If you are trying to agitate and pump manure without this big propeller and positive cutting blade, you probably aren't doing it as fast as you could.

This big 24" steerable propeller agitates even the hardest of manure storage pits with heavy bedding at displacement rates of 18,000 gallons per minute. The cutting blade will chop long straw bedding and hay from feed bunks to mix it into a rich and creamy fertilizer. This pump is available for all sizes of storage areas in lagoon, trailer, 3-point hitch, and stationary models.

Don't be caught short of enough pump to do the job.

Call us today for more information or a free demonstration.
