

Puppy Raisers Needed

LANCASTER — The Seeing Eye seeks families to raise puppies destined to be dog guides for blind people. Puppies born at the scientific breeding station in Mendham Township will soon be ready for loving homes.

The Seeing Eye pays veterinary expenses and provides a monthly allowance to help defray other puppy raising costs. The 4-H youngsters who raise the puppies

take them to local 4-H meetings to teach them basic obedience, and a Seeing Eye representative will visit the home periodically to help with the care and handling of each pup.

Raising a Seeing Eye puppy is a family project. As a family member, a puppy gets the confidence it needs to be a Seeing Eye dog. When it's old enough for training, it will already be well

adjusted to family life. Sometime between 12 and 14 months of age the pup will return to The Seeing Eye for specialized training.

At the Seeing Eye in Morris Township, N.J., qualified instructors teach Seeing Eye dogs to guide blind people. Since 1941, 4-H families have been raising puppies for The Seeing Eye. For more information call your local county 4-H agent.

If raising puppies is of interest to you, contact your local 4-H agent.

Gifts are for Giving

LANCASTER — Boys and girls enjoy holidays, birthdays and other gift occasions. From an early age they are active gift receivers, enjoying the anticipation as well as the gifts themselves. They enjoy being asked to specify particular items they'd like; to make Christmas lists and birthday lists.

However, children need to experience gift giving too, says Greta C. Vairo, Extension home economist. Even preschoolers can participate in planning, making and shopping for gifts for family and family friends. They need to learn why gifts are given.

Well-planned gift giving can be an enjoyable learning experience

for parents and children. Planning is the key. You need time if you want to include children in the process. A last minute rush to the stores to purchase a list of items won't do the trick.

The children can be involved in planning what would be just the right present for grandmother. They enjoy helping dad decide what to give mother, especially when they get to go on a shopping trip with him for the special gift. Older children can do their shopping in a semi-supervised way. One possibility is a family outing that includes lunch, or a snack in a restaurant. After eating,

the family can break into groups to shop for each other. These groups can be re-formed until each child has shopped for both parents, brothers and sisters.

Wrapping gifts can be fun too, with "secret" sessions going on in different corners of the home as surprises are readied by children who are givers as well as receivers.

NEW FORD TW SERIES

cost-cutting
EFFICIENCY

The new Ford TW Series tractors are designed from the ground up for efficiency that strengthens your bottom line. And there's one sized for your farm: TW-5—105 PTO hp* TW-15—120 PTO hp* TW-25—140 PTO hp* TW-35—170 PTO hp*

- **FREE TRACTOR CARE**—Virtually all you buy is the fuel and fluids for replenishment during the first three years or 2,500 operating hours +
- New engine efficiency—from the exclusive air-to-air intercooler on the TW-35 to the new viscous fan drive that cuts parasitic power loss
- new TW Series tractors deliver excellent fuel economy without sacrificing torque or strength

- New optional center-differential front-wheel drive—tests show it could cut fuel consumption and field time by up to 20 percent on a per-acre basis, depending on tractive conditions
- New computerized Performance Monitor—monitors excessive wheel slip for maximum efficiency. Precisely measures in-field productivity
- 16-speed Dual Power transmission—shift on-the-go between Direct and Power Drive for extra pull when you need it
