If the engine quits, two-way radio could pay for itself today.

Lose just one day during the planting season and it could make all the difference between a good crop and a poor one. That's why you should be equipped with a Johnson FM two-way radio.

With two-way radio if your engine quits you can simply call for help. Chances are a mechanic can get to you and get you going again while there's still some daylight left.

But without two-way radio you'd just have to start walking. There are a lot of other ways Johnson FM radio can save you time and money. Why not let us show you how you can lease or own a complete two-way system for as little as 75¢ a day.
