Let me rate your herd's vitamin/mineral product with this simple test.

Here's an easy way to find out how good your herd's vitamin/mineral product is. I'll take a little of what you're using, put it into an empty jelly jar and shake it. Then, I'll do the same with a Vigortone' sample. Unless I miss my guess, the sample from your bag will be full of small fines and big chunks.

The Vigortone' difference.

Unlike most vitamin/mineral products, Vigortone vitamin/mineral particles are all perfectly sized and uniform. That's the way they come out of the bag... and that's the way they go into your ration. You know your herd is getting a uniform balance of vitamins and minerals. Not too much or too little.

If you'd like a real Vigortone comparison on your farm, give me a call. I'll bring Vigortone samples (and my own jelly jars).
