Reliable Feeding On Display At The PA Farm Show

Hard-packed and frozen silage makes feeding more than a routine chore.

Patz gives you two solutions to the problem — the RD-820 ring-drive silo unloader and the 98B surface-drive silo unloader. Both have a double-hook gathering chain with hardened steel cutters and claws that cut through frozen and packed silage.

- Spring-tensioned powered cutter keeps silo walls free of buildup.
- Preset depth-of-cut control makes feeding truly automatic (98B).
- Powerful blowers with adjustable impeller blades do the job

We'll show you how to get the most performance for your money

Patz

Patz builds manure handling systems you can depend on

Contact us for more information.

Patz

Patz builds feed handling systems you can depend on

That's because Patz spends a great deal of time in design and field testing, to make sure that our equipment will stand up to your requirements.

Whether you need a large or small feed handling system, a silo unloader, a conveyor, or feeder...

Year after year, you can depend on

Patz
