

EXECUTIVE 8085
DAIRY FEEDING SYSTEM II

- Program Each Cow
- Program A Ration
- Program B Ration
- Feed Compared To Production
- Easy To Operate
- Simple Installation

Money-saving management tool

You can get a printout from the Executive 8085 at any time. Each printout gives you the valuable feed management information:

- Amount of feed programmed for each cow
- Amount of feed dispensed to each cow, this cycle
- Amount of feed dispensed to each cow, this month
- Summary of previous cycle.

You can quickly spot problem cows by asking the computer to print out all cows not eating 75% of their programmed ration.

Total herd management system

For a total dairy management system, connect your Selective Feeder System with our Zenith Farm Management System. Readouts are available in your office on the Zenith computer. Optional software programs allow you to integrate health, breeding, production and feeding management programs in one computer system.

For more information write for free product literature.

★ SOFTWARE ★
A Farm-Tested, easy to use management software designed to save time and manage for profit.

- DAIRY HERD MGT.
