HYDRAULIC TIPPING TRAILERS

MODEL 150

MODEL 800

Fast, efficient seedbed preparation

A BALING BREAKTHROUGH

Krone Round Balers

A totally NEW concept in baling machinery, the Krone line of round balers features an endless chain conveyor without belts. Closed chamber reduces problems associated with conventional belt type balers. Less horsepower required for the Krone Round Baler's fewer moving parts means great energy savings. Produces weather resistant bales with hard outer wrap and medium density core for better curing. Available in two models for bale diameters of five or six feet.

See for yourself... A KMN representative will be glad to arrange a demonstration. Call, or write today to your distributor.

NEW UPDATE YOUR IH CYCLO™ PLANTER

New Yetter 6000 Series planter units replace worn and inaccurate opener assemblies in IH 400 and 500 Cycles. You gain accuracy in planting depth and improve your crop stand. Easily mounts to your draw tubes or tool bar.

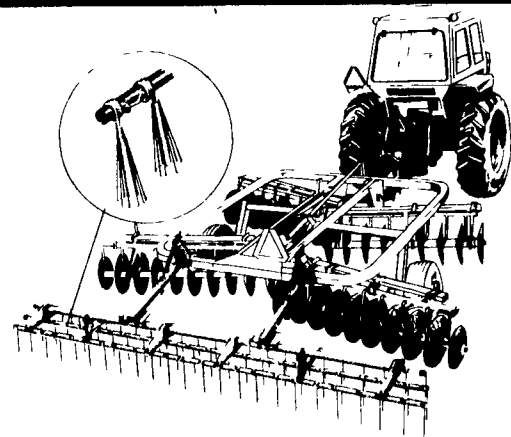

SPECIAL FEATURES:

- Synchronized operation of discs
- Fully adjustable gauge wheels for consistent planting depth
- Forward motion compensating seed drop tube
- One Lever depth adjustment
- Independent pitched closing wheels (no over seed compaction)
- Plants 15 rows or wider

NOBLE™

Add a Noble Mulcher to your disk field cultivator or chisel plow and save an extra trip over your fields. You can level, mix, mulch and incorporate chemicals all in one pass.

A Noble Mulcher can save you time and energy, eliminate weeds, help conserve moisture, increase your yields and profits.

Noble Mulchers feature 'vi bra' action spring coil teeth. The circular motion of each tooth breaks up air pockets to firm the seedbed. Young weeds are also pulled to the surface to die.

Come in soon, we'll show you how a Noble Mulcher can enhance your existing tillage equipment.

FRANKLIN EVERLAST HOG & CATTLE WATERERS are BUILT TO WORK... and TO LAST....

HERE'S WHY Talk about quality in livestock watering equipment and you automatically think Franklin because every one of Franklin's heavy-duty Everlast Waterers is built to last and built to fit your needs in a variety of dependable models and sizes. Here's the automatic, all-galvanized steel waterer that feeders, livestock men, agricultural colleges and dealers asked us to build! It's the result of more than a quarter-century of sales, service and manufacturing know-how and it's backed by more than a half-century of service to the farm industry. It's the strongest and heaviest steel waterer on the market. It's equipped with precision engineered thermostats, economical heating elements and a patented float valve that ensures automatic, low-cost, trouble-free service in summer or winter. Makes all other valves obsolete. Take a good look at the extra features, extra safety, the extra quality you can get in a Franklin. Compare... you'll be surprised at the difference you find in watering equipment.

Canadian models are CSA approved.
 All Cattle Waterers Grade A approved.

HEATING ELEMENT
 Finest quality, carbor-type heating element. Epoxy seal on unit prevents moisture from entering — no blow-out. Flat surface mounting for faster heat and economy of operation.

THERMOSTAT
 Brass, immer-sion type thermostat in clear view and is easy to adjust. Extra-fragile accuracy.

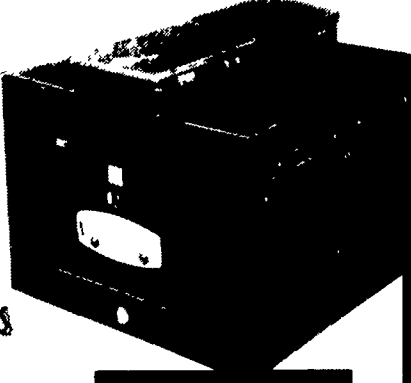

TROUGHS
 All troughs are made from extra-heavy gauge material. Franklin troughs and casings are fully 2 gauges heavier material than most competitive waterers.

INSULATION
 Heavy foam insulation to provide lowest possible operating cost.

HOG DOOR
 Largest hog door available. 14" x 14" opening. All steel construction. Welded to frame.

CASING
 Heavier gauge all-steel construction — one-piece casings are formed from heavy gauge galvanized steel.

For better and longer service read instructions before installation.

SERVICE DOOR
 Easy opening service door. Exclusive door latch system, tightly to prevent heat loss and winter time freeze-ups. Thermostat, trough, heater, heating element easily accessible for repair, tune-up and service.

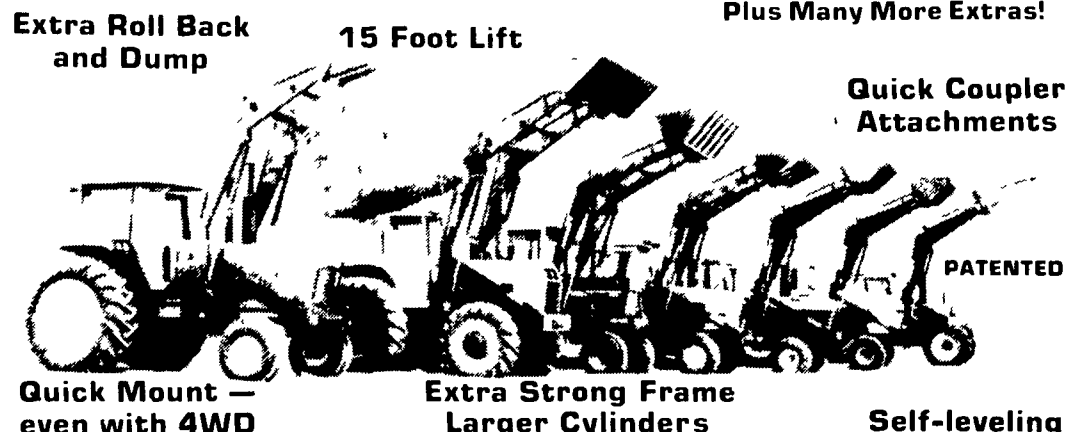

FLOAT
 The new, low-cost float valve for water level control. It's built to last, durable and simple to adjust.

DRAIN
 Flush edges and recessed drain — no sharp protruding edges — increase life of the unit considerably.

WESTENDORF "THE LOADER SPECIALISTS" — Presents the WL64 Series — For the Man Who Wants it ALL

Ideal For the New Wider, Larger Hp Tractors, Plus Many More Extras!

Extra Roll Back and Dump

15 Foot Lift

Quick Coupler Attachments

Quick Mount — even with 4WD

Extra Strong Frame Larger Cylinders

Self-leveling
