

MUELLER FRE-HEATER®

**There's More Than One Way to Save Energy
Mueller Has Four!**

Every one of Mueller's Fre-Heaters has its own unique features, each designed to save money on energy costs. With four Fre-Heaters to choose from, every dairyman can find the right Fre-Heater to recover his wasted heat and use it to produce free hot water.

Which One Is Right For You?

The Model "D": This heat exchanger recovers 60% of available heat and uses it to produce free hot water.

The Model "DE-80": This Fre-Heater has all the features of the "D," plus an electric heating element that supplies additional energy to satisfy your hot water needs.

The Tri-Plate Compressor/Heat Exchanger: For maximum 100% heat recovery, use this self-contained Fre-Heater.

The Tri-Plate Heat Exchanger: You get 100% heat recovery with this heat exchanger unit, for use with existing refrigeration systems.

Ask your Mueller distributor for more information on the Mueller family of energy saving Fre-Heaters.
