

Biggs Inc. stages open house on Groundhog Day

The International Harvester dealership of Benjamin Brothers was only one year old when A. Wallace Biggs went to work for the Rising Sun, Maryland, firm as a partsman in 1947.

Biggs remained an employee of Benjamin Brothers until 1974,

when he and his son, Albert Biggs, Jr., took over the firm, changing the name to its present form, Biggs Incorporated.

With Wallace Biggs, the President of the corporation, managing parts and service, and Secretary-Treasurer Albert in

charge of sales, other Biggs employees include partsman Raymond Jugler, and Albert's wife, Sue, assuming secretarial duties.

Annual activities for the firm include participation in Ag-Progress Day at the Cecil County Fair, and a display of products at the Nottingham Park Country Fair, both mid-summer events.

Each year, Groundhog Day also means Pancake Day in Rising Sun, Maryland, as the company stages its annual one-day Open House featuring free pancakes, bacon, sausage, and beverages along with a tempting dessert of specials on tractors, implements, and parts

Biggs Inc., continues a 38-year International Harvester tradition of service to Rising Sun, Maryland.

Eckroth Bros. spans three generations

In 1946 Robert R. Eckroth began a career as New Ringgold's Harvester dealer by selling his first tractor to local farmer William Mimm, Sr.

In 1966 the business was sold to Robert's son, Lorton L. Eckroth, Sr., who remained at the helm until 1983 when his nephews, Daniel and Eugene Eckroth, bought the firm and formed the partnership of Eckroth Bros. Farm Equipment.

As grandsons of the founder, Daniel and Eugene represent the third generation of Eckroths to maintain ownership of the New

Ringgold I.H. franchise.

Demonstrating the enduring value of sound dealer-customer relations, the firm recently counted among its customers, William Mimm, Jr., son of Eckroth's first tractor customer nearly 40 years ago.

Members of the Eckroth team include secretary Gini Lee Eckroth, mechanics Kevin Emerick and Harold Fryer, and mechanic Woodrow Schellhammer who's 33-year affiliation with Eckroth Bros. has spanned all three generations of ownership.

Harvest more corn... get fewer cracked kernels

- 1460 - 170 hp diesel, 180 bu. grain tank, 4, 5, 6 and 8-row corn heads.

International' Axial-Flow Combines are the world's most advanced line of combines. That's because a single rotor handles the threshing and separating. Long gone are the conventional cylinder and the troublesome straw walkers. Threshing and separating are more complete so you save more grain. The rotor handles crops more gently so you have less cracked grain. Big diesel power and all-speed hydrostatic ground drive provide maximum output in any field condition. Deluxe Control Center, standard, provides maximum comfort and operating convenience.

IN STOCK NOW!

INTERNATIONAL 1190 MOWER CONDITIONER Preserves hay quality to maximize profits

Precision-machined, intermeshed rubber conditioning rolls crush and crimp your crop for fast dry-down, yet they work gently to save leaves. Rolls are mounted in the header, not on the frame, so the crop feeds straight in for complete conditioning, even in rough terrain.

- Two sizes: 7 and 9 ft
- Over-the-top frame suspension allows for header float, keeps crop pathway clear
- Rolls separate automatically when header is raised so you can clear slugs from your tractor
- Lever control lets you adjust the width of windrow or swath
- High-speed oil-bath knife drive gives you clean cutting, long life
- Simple equalizer hitch lets you turn sharp without losing performance
